

BLUEY BOOK

English Learning

For Kids

(Age 4 to 7)

For Parents. How to Use Your Bluey Book

Target Audience

This book is created for young children (around age 4 and up) who are growing up in a non-English-speaking home. It's ideal for families who want to introduce English in a playful and natural way — even if the parents aren't native speakers.

Goal

- The Bluey Book helps your child build their English vocabulary, step by step.
- The focus is on understanding and using everyday words — because more words = more confidence.

Print Format

- Print as A6 single pages or small A6 booklet — one per child
- Use thicker paper (at least 100 g/m²) for durability
- You can bind it (e.g. with O-wire) or keep the cards loose — both options work well

Daily Use

- Practice 1–2 cards (pages) per day
- The cards can be picked randomly or by topic
- In our home, kids enjoyed choosing cards themselves
 - this builds autonomy

Motivation — “Bluey Checklist” Routine

We use a simple routine:

“Tidy up and learn 2 English cards before watching your favorite cartoon.” It’s easy, repeatable, and effective.

Scan & Learn

Use your phone camera to scan the QR code on each card. It opens a short, playful online trainer — no login or app required. All quizzes include audio for each question and answer — so kids quickly learn the flow on their own.

Track Progress Visually

After each quiz, assess how your child did

Then color a bubble on the card:

 Green = understood

 Yellow = needs more practice

This makes progress tangible and motivating

Backside Overview: “My Progress”

- The last page includes a progress grid with 10 numbered boxes
- Each number stands for one English topic (e.g. Fruits, Colors, etc.)
- After completing a quiz, your child can color in the number — a simple, motivating way to see their learning grow visually

Have fun learning together.
